

# **Third Graders Showcase Their Writing Skills After an Exciting Field Trip to GCC!**

---

Our third graders recently wrapped up an incredible year with a memorable field trip to Glendale Community College (GCC)! Students participated in a hands-on science lesson in one of the college's science classrooms, where they explored exciting experiments and scientific concepts. They also visited the college's impressive planetarium for a fascinating lesson on space, sparking even more curiosity about the universe. The day ended with a special lunch at Verdugo Park, where students finally met their year-long pen pals in person — what a joyful celebration!

Following this trip, each student worked hard to write a five-paragraph informative essay, describing the day's events in detail. Students practiced using clear structure, strong writing mechanics, and vivid language to share their experiences. We are so proud of the way they organized their ideas into strong introductions, detailed body paragraphs, and thoughtful conclusions.

To share their hard work with you, we've included recordings of several students reading a paragraph from their essays. What a wonderful way to celebrate the end of the school year!
