

# 6TH GRADE WALKS THROUGH ANCIENT HISTORY

Our 6th graders at took a captivating journey back in time through the civilizations of Ancient Rome, Greece, and Egypt. Partnering with the dynamic team from Walk-Through History, students brought these remarkable cultures to life for teachers, parents, and peers.

In preparation, students spent weeks researching, rehearsing, and creating. They developed skits, speeches, costumes, and props to showcase the rich traditions, innovations, and legacies of these ancient worlds. Whether it was a Roman senator debating in the forum, a Greek philosopher sharing wisdom, or an Egyptian scribe chronicling history, every student had an important role to play.

The day of the event was nothing short of spectacular. Students embraced the challenge with confidence and enthusiasm—delivering engaging presentations that demonstrated not only their knowledge but also their creativity and teamwork. Parents and teachers were thoroughly impressed by the students' poise and performance, cheering as the 6th graders truly “crushed it!”

This immersive learning experience offered more than just a history lesson; it encouraged leadership, collaboration, and communication—skills that will continue to shape our students' growth long after the applause faded. At WVCS, we're proud to see our students discovering that history isn't just something to study—it's something to experience.
