

ELECTIVE CLASS COLLABORATION: LIGHTS, CAMERA, ACTION!

Students from both the Acting Drama and Media Production classes came together during Spirit Week for an exciting collaboration — creating student-produced music videos!

This creative project was a perfect example of what it means to be Collaborative — one of our WVCS C.A.L.L.E.D. values. Actors selected their favorite songs, while Media Production students led a professional-style pitch meeting to brainstorm and develop music video concepts together. From storyboarding to filming, students learned how teamwork and communication can turn big ideas into amazing results.

As the cameras rolled, laughter and creativity filled the room. Media students managed cameras, lighting, and editing, while Drama students brought stories to life through expressive performances. Each student had a chance to shine — whether behind the scenes or in front of the camera.

This project also reflected what it means to be a Learner — students didn't just talk about filmmaking; they did it! They practiced leadership, problem-solving, and artistic expression, all while gaining hands-on experience in real-world production skills.

The first filming day was a huge success, and the excitement is only growing as students head into editing and post-production. It's been an incredible reminder that when creativity meets collaboration, amazing things happen at WVCS!
