

ELEMENTARY DANCE

We are excited to share what's going on in our 2nd grade Dance Enrichment program! In this special class, our students are exploring the joy of movement, rhythm, and self-expression through dance—all while learning valuable lessons that align with our Christian values.

What We're Learning:

- **Rhythms and Patterns:** The students are discovering the basics of rhythm and how music can guide their movements.
- **Creativity and Expression:** Students have chosen a song they connect with that helps them share the joy of knowing Christ. The song is "Changed" by Jordan Feliz. Try playing it in the house or car and see your child light up!
- **Teamwork and Friendship:** As students rehearse for a performance, they become part of a team and know that every individual is important.
- **Faith and Praise:** We are celebrating our faith through movement. Our students are learning how dance can be an offering of praise and worship to God.

A Special Performance

Mark your calendars. Students will have an opportunity to showcase their newest routine during chapel on Feb 12th. We look forward to sharing this joyful moment with you!

Why Dance Matters

Dance helps children develop physical skills and improve their spatial awareness. Mastering a movement helps boost self-esteem. Dance is a chance to experience the joy of movement as a form of worship and a way to honor God with our bodies. We're so grateful for the opportunity to integrate dance into our curriculum and see the children grow in body, mind, and spirit.
