

FIELD DAY!

The last day of summer camp is always filled with bittersweet emotions, but field day makes the departure much more enjoyable! Campers rotated around various stations at which they could choose a fun activity before moving on to the next.

Every station was a hit! Although water play is available on the field every Friday, on our final Friday of the summer, it was just one of the many fun areas for campers to enjoy. The gym was host to a collection of inflatable play areas, including bouncy castles, an obstacle course, and football and basketball aim practice. A photobooth area was available on the side of the gym. Campers took photos together with silly props, keeping a printed version for memories.

While the props were a big part of accessorizing the campers, it was not the only station that contributed to field day fashion. The hair and face painting stations left participating campers looking fun and festive! Campers were able to get their hair done in pretty updos or Dutch braids and could get a painting of their choice on their face. The face painting station resulted in several tigers, Spidersmans, and rhinestone-studded unicorns running around campus with cotton candy, popcorn, and shaved ice cones.

The day wrapped up with a sweet surprise... Uba Tuba catering! Each camper left West Valley Summer Camp 2026 with an açai bowl in hand and a smile on their face. It was the perfect day to end a perfect summer!
