

ROLLING INTO ADVENTURE: BLUE GROUP'S THRILLING SCOOTER EXCURSION TO WESTFIELD MALL

Last Wednesday, the Blue Group embarked on an exciting adventure to Westfield Mall on scooters, and it turned out to be a day full of fun, exploration, and camaraderie.

The day started with a quick safety briefing where the campers were reminded of the importance of helmet use and road safety rules. Once everyone was geared up and ready, we set off on our scooter journey.

Upon arrival at the mall, the group was ready to explore its various attractions. The first stop was the food court, where everyone fueled up with a variety of food and refreshments. The wide selection of eateries ensured that everyone found something they liked, from pretzels to smoothies. After lunch, the Blue Group split into smaller teams to explore different sections of the mall. Some campers headed straight to the lego store, where they explored a variety of legos and created their own characters. Another group decided to check out other shops. They browsed through various stores, checking out the latest trends in fashion and gadgets. It was a great opportunity for them to practice budgeting and making choices about what they wanted to purchase with their pocket money.

As the afternoon drew to a close, it was time to hop back on the scooters and head back to camp. The return journey was filled with chatter about the day's highlights and anticipation for the next adventure. Everyone arrived back at camp tired but happy, with plenty of stories to tell the other counselors. The scooter trip to Westfield Mall was a huge success. It provided a perfect blend of physical activity, creativity, and social interaction. The campers learned the value of independence, teamwork, and exploring new places. We're already planning our next exciting outing and can't wait to see where our scooters will take us next! Here's to more fun and adventures with the Blue Group!
