

KINDERGARTEN BOOTCAMP: OUR FIRST FULL DAY OF SCHOOL

Our Kindergarteners officially launched into their first full day of school with Kindergarten Bootcamp! Dressed in camouflage and surrounded by a decorated classroom, students dove into a day filled with fun, engaging activities designed to introduce them to the tools, routines, and expectations of their brand-new classroom. While it felt playful and exciting, every activity was carefully structured to set a strong foundation for a year of growth, learning, and community.

The day connected beautifully with our **G.R.O.W.T.H. model**, which shapes learning across our school. Students experienced **Guided Experiences** as they explored classroom tools and routines through hands-on centers. They engaged in **Reflection** by sharing what was fun, what felt new, and how they could grow. With **Observation & Open Questions**, curiosity was encouraged as students learned the “why” behind classroom practices.

Collaboration shined through **Work & Wonder Together**, as students partnered in activities and supported one another in building their new classroom community. By the end of the day, students were ready to **Tell & Show Understanding**, proudly practicing the routines they had learned. Most importantly, the day included a **Heart Check**, helping each child reflect on kindness, perseverance, and courage as they began their Kindergarten journey.

Kindergarten Bootcamp was a celebration of new beginnings, filled with laughter, learning, and teamwork. It marked the first step in a year where our Kindergarteners will continue to grow—not just academically, but also in character and faith.
