

ABC FASHION SHOW: CELEBRATING LETTERS, SOUNDS, AND CONFIDENCE!

Our Kindergarten students recently wrapped up one of the most exciting milestones of the year — the ABC Fashion Show! Leading up to this special event, our young learners spent several weeks diving deep into the alphabet through daily hands-on activities. Each day focused on a new letter and sound as students practiced proper letter formation, completed creative directed drawings, and rotated through interactive literacy centers. Reading folders went home daily to help families stay connected and practice the same skills students were mastering in class.

As the days went on, our Kindergartners began to use the letters they knew to build and blend words, taking their first meaningful steps toward reading! The excitement grew as students prepared for the grand finale: each child was assigned a letter, created a colorful alphabet poster, and designed a costume to match. On the day of the Fashion Show, the classroom was filled with laughter and pride as “robots,” “bumblebees,” and “astronauts” walked the runway, proudly sharing their letters and sounds with their classmates.

The ABC Fashion Show beautifully reflected two of our G.R.O.W.T.H. values — Guided Experiences and Working & Wondering Together. Students participated in structured, teacher-led practice that allowed them to grow in confidence, and they supported one another through every stage — from blending words to cheering each other on during the show. The result was a joyful celebration of learning, creativity, and community.

This memorable event was more than a performance — it was a moment of reflection, confidence, and gratitude. Our Kindergartners not only celebrated their progress as emerging readers but also learned that every step of the journey — from practice to performance — can honor God and bring joy to others.
