

THE SMOKE OF FAN THE FLAME

Our Flame In God

As everyone was getting ready for the fun day, we all met up at the chapel. One major part of worship is that it comes from the heart. When singing and focusing on what's important, it is crucial that you understand. Our students' favorite part was worshipping the Lord. We ended up playing a few games like six corners, to compete for tribe points. Can you imagine what this day of worship would be without God? Our guest speaker Pastor MJ presented us with courage. He talked to us about how it's a time of confession to our heavenly Father. He said, "Courage is a decision you make in hard times". God doesn't want us to be marked by other people, He wants us to be marked by the courage he gives us. Pastor MJ also said " Move forward in the face of fear". When God promises us something it gives us His people courage. There will always be someone in control of us. In Psalm 121 it mostly summarizes how God is in everything and will always be within times of hardships. When worshipping our Heavenly Father it was always about Him and how he is with us all the time. One of our middle schools' favorite songs is "I Thank God". It mainly shows our thanks to God for giving us a place to be. When singing that song everyone was jumping around and having fun praising Him. Another song called "That's Who I Praise" shows how loyal we are to God and everything he's done for us. Thanks to Mrs. Dy and Miss Mure our students can have a chance to worship God on this special day.
