

YEARBOOK

In their elective class, a dedicated group of students have been creating the yearbook for 2024-2025. They have finished many pages and are creating new ones to accompany the events that have come to pass.

By using Canva, BookBuilder, and some of their creative magic, they will have put together a yearbook that the whole school will see and enjoy (hopefully). Though the class still has lots of fun together, they are still very productive and get a lot done during the class period.
