

PE Spotlight: Treasure Island Adventure!

Our first-grade students set sail on an exciting journey in PE this week with a game called Treasure Island! This fast-paced activity had four teams racing to collect treasures (dodgeballs and cones) while dodging pirates in the middle, who used pool noodles to tag players before they could escape. The pirates were restricted to a designated zone and could not leave their area, making it a challenge for them to guard the treasures while staying within their boundaries.

The game challenged students to use speed, agility, and quick decision-making. Pirates focused on positioning and timing their tags, while treasure seekers had to dodge, sprint, and strategize to grab the most treasures. Communication and teamwork were key as players worked together to outsmart the pirates.

PE Spotlight: Treasure Island Adventure!

Beyond the fun, Treasure Island helped students develop essential physical skills like coordination and balance while reinforcing sportsmanship and fair play. Every student had a chance to shine, whether they were collecting treasures or defending them.
