

PUMPKIN PAINTING: CREATIVE FALL FUN!

Pumpkin Painting Free Art was a joyful guided experience that gave our Deer and Fox class friends the chance to explore their creativity and imagination this harvest season. Each child brought in their own pumpkin and received art supplies and step-by-step encouragement from their teachers on how to turn it into a colorful masterpiece.

Students experimented with color, patterns, and texture, discovering how a simple pumpkin could become something truly unique. Laughter filled the room as they proudly shared their designs and admired one another's work.

This activity was not only about painting—it was about learning to work together, share materials, and celebrate each other's creativity. By the end of the project, our little artists had created a beautiful pumpkin patch of art that reflected their personalities and the joy of learning through play.
