

Red Group's Thrilling Laser Escape Adventure

This week, Red Group stepped into a high-energy mission as they took on our laser escape game, and it was nothing short of a blast. Campers had to navigate a glowing maze of lasers to "escape" in time. The room was filled with dramatic lighting and intense music, adding an exciting edge that had everyone on their toes. It felt like something straight out of an action movie.

The game pushed campers to think fast and work together. Some crawled across the floor while others carefully guided teammates around tricky laser beams. There were lots of laughs, a few near-misses, and plenty of celebration when teams made it to the finish. "I felt like a real spy," Layla said after the game. "It was hard, but we worked together and made it through." Gabriel chimed in with equal excitement. "My favorite part was when we had to run through and avoid the lasers under pressure. It felt like we were in a movie."

One of the best parts of the experience was watching the kids cheer each other on. Even when someone tripped a laser, their teammates were right there, encouraging them to keep going. It was awesome to see how much confidence and trust was built in such a short time.

The laser escape game wasn't just a fun challenge—it was a full experience that brought Red Group closer together. The excitement, teamwork, and energy made it a standout moment of the week and something the campers will definitely be talking about for the rest of the summer.
